Java

```java
class Solution {
    public int maximumScore(int a, int b, int c) {

    }
}
```

JavaScript

```javascript
/**
 * @param {number} a
 * @param {number} b
 * @param {number} c
 * @return {number}
 */
var maximumScore = function(a, b, c) {

};
```

C++

```cpp
class Solution {
public:
    int maximumScore(int a, int b, int c) {

    }
};
```

C#

```csharp
public class Solution {
    public int MaximumScore(int a, int b, int c) {

    }
}
```
